

INVESTOR OVERVIEW

Building the next generation of AI-powered companies that transform how businesses and people grow.

Biztree Holdings is an AI-powered company builder and holding company. We create, acquire, invest in, and scale enduring businesses for the next era of growth.

AI-POWERED COMPANIES. TRANSFORMATIVE GROWTH. LASTING LEGACY.

A holding company building the future of business growth, AI innovation, and human potential.

Biztree Holdings builds and scales companies at the intersection of artificial intelligence, automation, business productivity, education, personal empowerment, and venture creation. We are not passive investors. We are builders, operators, investors, and long-term owners.

Our model combines the upside of venture creation with the discipline of long-term ownership. We design companies to solve meaningful problems, generate value, and compound across decades — not chase liquidity.

The next generation of transformational companies will be built at the intersection of AI, automation, entrepreneurship, and human potential. Biztree Holdings is positioned to build, acquire, and own them.

We create. We acquire. We invest. We scale.

Biztree Holdings operates as a venture holding company across four disciplined activities, all on the same long-term horizon.

01

Create

We launch new AI-powered ventures from inside our venture studio, capitalized from day one.

02

Acquire

We look for enduring businesses that can be modernized and scaled with AI, systems, and growth strategy.

03

Invest

We back companies and founders aligned with our long-term thesis.

04

Scale

We provide strategy, capital, technology, marketing, leadership, and operational support.

Where we build, invest, and scale.

We focus on high-potential sectors where AI, automation, and intelligent software can create meaningful transformation.

AI and automation

Business productivity

Future of work

Entrepreneurship

Personal life management

Education and learning

Knowledge systems

Digital marketplaces

Financial management tools

Human potential

A growing ecosystem of AI-powered businesses.

Business in a Box

OPERATING COMPANY

BUSINESS SOFTWARE · PRODUCTIVITY · AI

AI-powered Business Operating System used by 250,000+ entrepreneurs in 190+ countries to manage work, documents, communication, knowledge, people, and AI in one platform.

LifePlan

IN DEVELOPMENT

PERSONAL LIFE OS · AI LIFE ASSISTANT

Personal life-management platform with an AI Life Assistant for goals, projects, routines, journals, vision, memories, and daily actions.

Biztree AI

VENTURE CONCEPT

AI AGENTS · BUSINESS INTELLIGENCE · AUTOMATION

AI platform for businesses — intelligent agents, knowledge systems, automation tools, and AI-powered workflows.

dBrain

VENTURE CONCEPT

KNOWLEDGE MANAGEMENT · PERSONAL AI

AI-powered knowledge and productivity system to capture, organize, retrieve, and use knowledge effectively.

Startup

Academy

VENTURE CONCEPT

Practical entrepreneurship education with frameworks, AI tools, templates, and step-by-step systems for founders.

Biztree

Marketplace

VENTURE CONCEPT

BUSINESS MARKETPLACE · DISCOVERY

Business discovery platform connecting companies, freelancers, and service providers with potential customers.

MyAgent

VENTURE CONCEPT

AI TALENT · DIGITAL WORKFORCE

Platform of AI agents specialized for specific roles, workflows, and business functions.

A focused strategy for intelligent growth.

AI-Powered Company Building

We build and support companies designed around AI, automation, and intelligent software — not bolted-on features.

Diversified Venture Exposure

Our ecosystem includes operating businesses, developing ventures, and future concepts across aligned markets and sectors.

Active Value Creation

We are directly involved in strategy, product, operations, growth, and scaling. Operators, not allocators.

Long-Term Ownership

We aim to build companies that compound for decades. No artificial timelines, no forced exits.

Operator-Led Leadership

Every decision is informed by 24+ years of building, scaling, and running software companies for entrepreneurs worldwide.

Mission-Driven Innovation

We focus on businesses that empower people, improve productivity, and serve meaningful needs. Technology in service of human potential.

Long-term operators paired with AI-powered company building.

FOUNDER & CEO

Bruno Goulet

Bruno has spent 24+ years building Business in a Box, the operating system used by more than 250,000 entrepreneurs in 190+ countries. Biztree Holdings is the next chapter — a long-term home for the AI-powered companies he is building, acquiring, investing in, and scaling.

Operators bring something allocators cannot: the scar tissue of having built the thing themselves. That perspective is the foundation of how Biztree Holdings underwrites every company in its portfolio.
